Success Lesson #1:

It is in the heart where transformation takes place for lasting effect.

Success Lesson #2:

When you set goals that are aligned with your purpose in life, it goes better!

Success Lesson #3:

When you do what you love and what gives you joy and energy, it is an indication that you're aligned with your life's purpose.

Success Lesson #4:

The challenges that show up are often in direct response to your goal. They are there to give you an experience and to test you. If you respond to these challenges the right way, you pass the test, achieve the goal and move on to the next level.

Success Lesson #5:

The journey may not be easy, but it is and should be joyful.

Success Lesson #6:

The Law of Polarity: Contained within every challenge is the seed of an equal or a greater benefit. Therefore, the most fortunate person is the one with the greatest challenge!

Success Lesson #7:

No matter what you think you need, you have all that you need in this moment to do the next one thing. Look at the next moment only and focus on what you can do now.

Success Lesson #8:

Set the intention for the future, act in the now and be grateful anyway.

Success Lesson #9:

When you've more than filled your place, it can't contain you any longer. Therefore, if you're working at a job that you hate, be the best you can be at it, until it can't contain you any longer. Then, keep an eye on the opportunities as they present themselves.

Success Lesson #10:

Life can't hold you back from accomplishing your intention, if you're determined.

Success Lesson #11:

Relax, find joy and be grateful for what you already have.

Success Lesson #12:

It will happen in the right pace for you. You'll receive as much as you can appreciate, as quickly as you're prepared and able to receive it. It all begins with living right - in the moment.
